DOSSIER STUDENTE (STUDENT FILE).

A service available for applicant students, to check the status of their application to ER.GO benefits.

Connecting to www.er-go.it, you can get access to “Dossier Studente”, entering with your personal credential, the same you used for applying online. The service is also available on mobile and tablet devices, using the optimized release, at the following page:

<https://servizionline.er-go.it/dossier/mobile>.

“Dossier studente” is a personal file available to the student throughout his /her university career, in which it is possible to look through each academic year.

In the “Dossier”, according to each academic year, student can:

- view the required benefits and print the whole application form
- check the ranking lists
- view the status of assignment of the benefits required by the student
- view the academic achievement data certified by University
- get access to ER.GO news for the student
- send an IBAN code and view the payment notices of scholarship and other economic benefits provided by ER.GO.
- send documents to ER-GO to be filed into the 'Dossier' available for consultation
- view the “account” (debt and credit position with Er-go)
- view all communication sent by ErGo
- view all emails received/sent from/to ER.GO through SCRIVICI!
- pay the confirmation advance fee of the lodging
- access to the online 'booking system' (SUC) to check and book a free-access lodging

All written communications from ER.GO to students (including those related to the loss of requisites for benefits, check procedures, etc.), will be issued on their “Dossier Studente”, which will have official value to all extents and purposes, instead of postal correspondence.

ER.GO certified mail: info@postacert.er-go.it

Certified electronic mail (PEC) allows traceable, secure correspondence to be exchanged with ER.GO.

You need a personal certified electronic mailbox, easy to set up by a simple request on-line - www.postacertificata.gov.it - to send to the company managing the service.

Once you have stated the certified electronic mail address in the on-line application, the PEC completely replaces the “registered post with return receipt”, specified in some parts of the application notices (i.e. sending the rental agreement, etc.), and allows formal replies, documents and correspondence to be received from ER.GO.

As regards documents requested to foreign students about their family economic condition, PEC does not replace the “registered post with return receipt”, since they must be legalized and sent in original.

For further information, regarding all ER.GO Benefits, please read carefully the Guidelines and the Announcements A.Y. 2017/2018 in their whole.

Regarding the education achievement requirements, for students enrolling in subsequent year at the Universities, the credits obtained, according to the University archives, will be stated in the on-line application form, as recorded within 10/08/2017.

Students, however, have the chance to add any more credits obtained within August 10th 2016, if those credits haven't been recorded by University yet (e.g. ERASMUS exams). They have just to follow the directions suggested by the on-line application form.

The information about credits will be sent at the same time to the Universities for the necessary checks.

Before to apply, it is advisable to check your own electronic exam transcripts, in order to view all the exams and didactic works passed and consequently recorded by 10/08/2017, as they are important for the education achievement useful to apply for benefits.

Students can apply only online, on the website www.er-go.it, or at the CAF (Tax Assistance Centres) recognised by ER.GO (see their complete list on the website www.er-go.it: "elenchi CAF"). CAF personnel are authorized to fill the online application form in and to send it to ER.GO.

Students who do not use the CAFs to apply:

- if they have specified a PEC (certified electronic mail) address in the online application, they will receive an email from ER.GO, containing the confirmed application form. In order to complete the application process, it is compulsory to reply to this email using the same PEC address indicated in the online application, within the deadlines set in the following Chapter 5;

- if they did not specify a PEC (certified electronic mail) address in the online application, they will receive an SMS (only applicants, who didn't specify a mobile number, will receive an e-mail), containing a personal PIN code.

The application will not be considered finalized until the student enters the PIN, in the online application, using the same credentials he/she used to apply online, within the deadlines set in the following Chapter 5.

The finalized application, containing the PIN code and regularly registered, will be available and downloadable directly by the person concerned from DOSSIER Studente. ER.GO will keep it stored in dedicated file ensuring its entirety and security.

These rules are not intended for applicants, applying by a CAF recognised by ER.GO, which will look after finalizing the application by itself.

Students can send their mails to ER.GO, only using a PEC address: info@postacert.er-go.it.

Important suggestions for completing the application:

- a) Please, let fill out, as soon as possible, the new ISEE certificate for service connected to the right to University Study, as it will take about 15 days to get the registration number from INPS, which is essential to apply online;
- b) before applying, please, check your own electronic exam transcripts, in order to view all the exams and didactic works passed and consequently recorded by 10/08/2017, as they are important for the education achievement useful to apply for benefits;
- c) try to bring forward, as much as possible, the online application for benefits, as the high concentration of connections might slow down access to the site;
- d) to get easily in touch with ER.GO, it is necessarily required to:

- specify an email address;
- a mobile phone number with an Italian SIM CARD (essential for receiving the own PIN code, necessary to finalize the application after the online confirmation; a text message information service is also activated for further communications).

In the application form you can also specify a Certified Electronic Mail (PEC) address. Certified electronic mail messages have the same value as registered post with return receipt.

- e) Once the application has been completed, please confirm the data entered. Only then will the application be correctly sent to ER.GO. Upon confirmation, you will receive an email notification of the application being completed and, in case you have applied autonomously (as to say: not by a CAF) you will be able to finalize by PEC or by PIN, as above mentioned.

Students can apply for converting a part of the scholarship into credit for the catering service. In this case, ER.GO will add a 50% extra amount.

Therefore, the scholarship is split into four different amounts, which can be converted into the catering service, corresponding to four different ER.GO grants:

Scholarship amount converted into catering service	ER.GO contribution	Total amount of prepaid credit for the catering service
€ 200	€ 100	€ 300
€ 400	€ 200	€ 600
€ 500	€ 250	€ 750
€ 600	€ 300	€ 900

The amount of the scholarship is defined depending on the ISEE value and whether the student is non-resident (“fuori sede”), resident (“in sede”) or commuter (“pendolare”), as follows:

ISEE value brackets	non-resident Students	Commuters	Resident Students
Up to € 15.333,33	€ 5.192,56	€ 2.983,88	€ 2.195,11

The scholarship for the students enrolled in the “further semester” beyond the Course time span is equal to the 50% of the amounts above.

The scholarship will be paid in two annual instalments: the first instalment paid by 31/12/2017 to students, who will be by 17/11/2017 regularly enrolled at University for the A.Y. 2017/2018.

The second instalment will be paid monthly from June 2018 (except from August 2018) to those students

who will have achieved the credits as noted in tables 1 (for first year students) and 4 (for students enrolled in subsequent years) of the Announcement.

11. International Scholarships

For students enrolled at University courses issuing double or multi-degrees and who spend an exchange period of six or more months abroad at the partner University, the scholarship amount is defined as follows, according to the below specified ISEE brackets:

ISEE BRACKET	INTERNATIONAL SCHOLARSHIP AMOUNT
	(no less than 6 months abroad staying)

Up to € 15.333,33	€ 5.495,11
From € 15.333,34 to € 16.866,66	€ 3.936,38
From € 16.866,67 to € 19.152,97	€ 3.042,53
From € 19.152,98 to € 23.000,00	€ 2.797,56

The International Scholarship amount is independent from the condition of “Non-resident, Commuter or Resident” student. The International Scholarship assignee students are not subject to the “self-certification of domicile” regulations.

The International Scholarship is incompatible with the Grants for International Mobility supplied by ER.GO and with any other type of grant provided by the University partner.

In case of concomitant allocation of both ER.GO International Mobility Grant and other grants awarded by national and foreign Institutions, aimed to complete students’ learning and research activity with exchange periods abroad (Erasmus, Socrates or similar), the total amount of the paid grants shall not exceed € 7,195.11.

For the students enrolled at University courses issuing double or multi-degrees, who spend an exchange period of less than six months abroad at the partner University, the scholarship amount is fixed according article 1 and following of ER.GO Announcement.

12 . Economic requirements

The economic condition of the student is assessed considering ISEE (Index of the Economic Condition) and ISPE (Index of Property Condition), two indexes measured according to the composition of the family, the incomes and assets owned by the family. The new regulation in force about ISEE (D.P.C.M. 5 Dec. 2013, n. 159 and M.D. 7 Nov. 2014, M.D. 29 Dec.2015, no. 363, and M.D. 1 June 2016, no. 146) introduces a specific ISEE as regards services connected to the right to university studies. Usually, in case of parents living with the applying student, the ISEE, issued for services connected to the right to university studies, corresponds with the ORDINARY ISEE, in this case, the ISEE certificate (Attestazione) must specify that it is applied to the supporting services of the right to University studies on behalf of the student concerned. In case of particular situations, please see the General Rules of the Announcement for the academic year 2017/2018 and the Guide to ISEE for the academic year 2017/2018.

Independent student

In case of parents not living with the student applying for an ISEE for services connected to the right to university studies, the applying student is member of the parent’s family unit, except in case both the following requirements occur.

- a) Official residence outside the family home for at least two years before the application for enrolment at the first year of each degree, in a housing not belonging to a member of the native family,
- b) Earned income or similar of at least € 6.500,00 per year in the last two years, declared by the student in his/her income tax return.
- c) If the student is married, it will be taken into account the student's new family unit, only if he/she meets the residence requirement (according to letter a) and in case the income requirements (according to letter b) are fully met, also considering the student's spouse income. In this case, to meet the income requirements, the

spouse's income (referred to the two previous years) can be taken into consideration, even if the student at that time was not yet married.

Rules for spouses are valid also for both parties of same-sex civil union, as provided for by the current regulations (law 20th May 2016, no. 76).

d) Only in case of a student enrolled at PhD courses, the family unit is composed of the student applying for benefits, his/her spouse, under-age children (younger than 18 years old) and adult children, according to the rules provided for by article 3, paragraph 2 and 5, of D.P.C.M. 5 Dec. 2013, no. 159. In this specific case, the ISEE is calculated on the basis of the so called "restricted family unit" and it is provided in a specific section of the ISEE certificate. The applying to benefits student, enrolled at PhD courses, can however reserve the chance to establish a family unit according to the ordinary rules provided for by article 3 of D.P.C.M. 5 Dec. 2013, no. 159. In this case, it is taken into account the "ISEE ORDINARIO" of the ISEE certificate.

In this case the student can be considered as independent student and we will consider only the economic condition of his/her new family unit, and not of his/her native family.

Students not resident with their native family, who do not have both the requirements indicated above, cannot be considered as independent students, but as members of their parents' family unit and must fill in the application form with reference to the ISEE including their native family. To define the student's condition as Resident Student, Non-Resident Student or Commuters, ER.GO will consider the residence of the native family.

13. Academic Achievement requirements

The academic achievement requirements are evaluated on the basis of the very first year of enrolment at the University.
